

WHAT MAKES OUR PRODUCTS LOOK AND WEAR SO WELL?

Quality Materials:

- **3 Ply of Materials** – By stitching webbing, grosgrain, ribbon and fancy braided trim together, this creates a stronger end product versus traditional single ply.
- **Ribbon Liner** – Prevents neck hair from entangling in webbing which results in hair pulling.
- **Welded D-rings** – Eliminates the possibility of the ring bending or slipping through the gap of an un-soldered d-ring.
- **Side Release Buckles** – The sides of the clips are angled out to prevent the buckle from accidental release. Comfort is another benefit of these buckles, thanks to their contoured shape.
- **Metal Slides** – Stronger, slimmer and easier to adjust than plastic slides.
- **Easy Slip-Off Elastic** – The elastic design prevents your cat from unwanted entanglement.

Great Looking:

- **Garment Trim** – You are sure to find the color and pattern that suits your dog best from our large variety of trim from all over the world.
- **Complimenting Ribbon** – Sewn to the back of each product is a colored ribbon that brings out the best in the trim.
